

RADACINI

FIORI

Radacini Fiori is a story of identity, heritage and pride. In Romanian, Fiori means “emotions” – the deep feeling you experience when tasting an authentic wine, rooted in tradition and crafted with care.

Made from Moldova’s native grape varieties, elegant and full of character, these wines are inspired by our culture and decorated with motifs from the national le blouse. Each bottle brings emotions of pride at home and a thrill of discovery worldwide.
